Inadequate ventilation.  Unable to achieve a comfortable (or legal minimum) temperature within the building.	Increase in risk of transmission of Covid19.  Occupants become cold - poor concentration levels impact on learning.	H	<p>General principles when using natural ventilation include opening windows. In cooler weather windows should be opened just enough to provide constant background ventilation, and opened more fully when unoccupied to purge the air in the space (e.g. between classes, during break and lunch). Rooms should, where possible, be fully ventilated for at least 15 minutes prior to and following use.</p> <p>Opening internal doors can also assist with creating a throughput of air. If necessary external opening doors may also be used (as long as they are not fire doors and where safe to do so)</p> <p>Opening high level windows in preference to low level to reduce draughts</p> <p>Rearranging furniture where possible to avoid direct drafts.</p>	L	<p>HSE video on Covid19 and ventilation: <a href="https://www.youtube.com/watch?v=hkK_LZeUGXM">https://www.youtube.com/watch?v=hkK_LZeUGXM</a></p> <p>Occupied rooms with no ventilation - their use should be avoided.</p> <p>Providing flexibility to the school uniform policy to allow additional, suitable indoor clothing to be worn.</p>

Promote the 'catch it, bin it, kill it' approach. Disposable tissues are provided along with bins for used tissues and other waste. This waste is bagged and disposed of.</i></p> <p><i>Appropriate cleaning regimes are in place, including regular cleaning of areas and equipment [for example, twice per day – you should have documented cleaning schedules in place], with a particular focus on frequently touched surfaces.</i></p>	<i>M</i>	<p><i>Notices and information on Covid rules/protective measures are displayed in school.</i></p> <p><i>The <a href="#">e-Bug Coronavirus website</a> contains free resources for schools, including materials to encourage good hand and respiratory hygiene.</i></p> <p><i>The location of items (e.g. signage, hand sanitiser stations, lidded bins in classrooms and in other key locations) is reviewed and cited with regard to site specific circumstances to ensure ease of use.</i></p> <p><i>See: <a href="#">COVID-19: guidance on shielding and protecting people defined on medical grounds as extremely vulnerable</a></i></p> <p><i><a href="#">Pregnant workers model risk assessment</a> (to be completed in conjunction with the above CEV/CV assessment for vulnerable staff).</i></p>
