Welcome to the second newsletter from Bowmer + Kirkland regarding the re-development of Ringway Primary School.

Project Information

From Monday we will start to form the main site entrance at the junction of Beverley Drive and Ringway. The initial works will include the installation of three additional tactile paving crossing points. Once these are completed the existing crossing point will be removed and the site entrance can be formed.

These works will continue for a week and traffic management signage will be in place throughout. All deliveries will be managed by our gateman who will also enforce no parking on any of the footpaths by contractors. The only exception being the team installing the new crossing points behind our barriers.

Once the site entrance is complete, the site compound will be established to support the ongoing construction works. On May 28, you will see the arrival of our site offices.

Over the next month, the site will be stripped and reduced in preparation for the next phase of construction.

Our site team will operate within the hours agreed with Northumberland County Council:

Monday - Friday 07:30-18:00 (no deliveries between 08:30-09:00 and 14:30-15:30).

The site will be fully secured during the project and we will work closely with the school and local authorities to maintain safety at all times.

We thank you for your patience and cooperation during the construction period. We will keep you up to date with activities onsite in following newsletters.

If you have any questions or comments please contact the project manager below. Alternatively, send us a comment about this site, scan the QR code (right) and send us your message or Text (including the site ID number 34499) to 07400 334 880

Considerate Constructors Scheme Code of Practice

**CONTRACTOR
AND SUPPLIER
PARTNER**

**CONSIDERATE
CONSTRUCTORS
SCHEME**

Organisations registered with the Considerate Constructors Scheme make a commitment to conform to the Code of Considerate Practice.

Through consideration to community engagement, the environment and workforce wellbeing they strive to improve the impact of the construction industry and leave a positive legacy through the implementation of best practice.

The Code of Considerate Practice defines the fundamental expectations for registration with the Scheme. The Code applies equally to all organisations registered with the Scheme, regardless of size, type or location.

Respecting the Community

Constructors must manage their impact on their neighbours and the public to support a positive experience, by:

- Ensuring courteous and respectful language and appropriate behaviour in and around the construction activity.
- Providing a safer environment, preventing unnecessary disturbance, and reducing nuisance for the community from their activities.
- Proactively maintaining effective engagement with the community to deliver meaningful positive impacts.

Care for the Environment

Constructors must minimise their impact and enhance the natural environment, by:

- Prioritising environmental issues to protect the natural environment and minimising negative impacts.
- Optimising the use of resources, including minimising carbon throughout the value chain.
- Engaging with the community to improve the local environment in a meaningful way.

Value their Workforce

Constructors must create a supportive, inclusive, and healthy workplace, by:

- Actively encouraging and supporting an inclusive and diverse workplace.
- Proactively supporting safe working, mental and physical wellbeing at work.
- Providing workplaces that are, well maintained, clean and secure from physical and biological hazards.
